# Weaver Models

★ Spring 2011 ★

**Still chugging along...**as the seasons pass into years, your friends at Weaver Models continue crafting quality and affordability into each model, most of which are produced right here on USA-based turf! Look for the USA symbol indicating models produced in-house.

**The B&O Wagontop Boxcars are here**, more Trailer On Flat Car liveries are being produced and the long-awaited Brass Gas Station has finally arrived. It's a good time for Model Railroading! Please remember, this catalog is just a sampling of the new items and new liveries offered. Please check our web site, [www.weavermodels.com](http://www.weavermodels.com) for a complete, up to the minute listing of everything we offer.

**Scalecoat Model Paint**, a division of Weaver Models, is also produced in-house. We use it on all of our in-house production models. You can buy and use it too! (see page 6 for details)

**Thank you** for continuing to trust us to fulfill your model railroading needs.
